him to the thoughtful yoter — he was competent enough
to make a success of his own business before he considered
becoming a politician.

DIFFERENT DAYS, DIFFERENT WAYS

Between 1908 and 1912, according to the Regina Leader-Poot, the population of Regina increased from Poot any, the 25,000 newcounter managed to house themselves without government assistance.

Between 1904 and 1900, Regina's population increased by less than 1,000, with the city six times as large as it was in 1908. Yet the Influx created a swere housing

The Leader-Post thinks that the reason the more recent influx caused a severe housing abortage, while the first did not, is that nowadays people think the government (i. e., other people) should build houses for them.

*MR. DONALD MACLEAN ...

Why did you buy your Canada Savings Bond, Mr. MacLean? My Bond 7 Man, I've bought Bonds every year.

I buy them to save money. It's an easy way to build up a little something.

Did you buy them through your bank?

No, I didn't. I bought them through the Company.

That is they took the money for the payments off my pay until they were all paid for. That's the easy way, to my thinking, to set something aside, without missing it much.

Mr. MacLean, have you found it necessary to cash is your Boads, say for some family entergency?

I have not: I have every one of them, and I lought them every time they came around. I think they are really worth having, that's why I buy them.

What do you figure to do with your Bonds?

I'm going to keep them for my old age. It's a long way off yet, but if I keep on buying Bonds I'll really have something to fall back on when I'm too old to work.

Haven't you any idea of buying a car or a house or something like that with the money from your Bonds? No, not for me ::: just for my old age, that's all. They're kind of extra insurance.

A CURIOUS SITUATION

A CURGOUS SITUATION

I. M. W. Gallagher, of Trenton, who describes himself as "an old man," has been trying to buy a house. He has located one in Felox, just the kind he has been wanting.

It is owned by an ciderly widow with whom Mr. Culling the control of the

widow has a senant, who is protected by reat control regulations.

It seems also that the elderly widow cannot get rid of her tenant, who enters the picture in a role something like that of the Old Man of the Sea in the Thousand And One

Hights. Mr. Gallagher is unable to understand all this. He ays: "She (the widow such o was the property) needs the ash and 1-need a home and still we can't do businesses the tenant. has privileges which the owner is

denied."

It may be possible that the tenant, whose side of the case we have not heard, could give good and sufficient reason why his wishes or necessities should come before those of both, the dwper of the house and the prospective

renamer.

Here is how Mr. Gallagher, who seems to be not only
but old-fashioned, like some of the rest of us, sums upe situation in a protesting letter which he has written to

a Tronton newspaper:

"Houses are scarce, and always will be, until our governments realise that the owners of houses or apartments have some authoritative rights (over those properties)."

Canada, Il appears, is going to continue equipping its infantitymen with the British 303 Lee-kniteld rifle.

Some time ago, the Canadian government acquired a supply of the American army's standard rifles, the 300

Garand.

Now, it is amnounced from Ottawa, the Canadian 27th
Brigade, which is going to be sent to Europe next month,
will discard its Garanda and be supplied with the old LecEnfields.

The old-Lee-Enfaded may be a powerful and efficient weapon, but the British themselves have discarded it infered of a new, 350 calibre weapon which they apparently believe is better.

*MRS. IRIS NORTH ...

How do you and your husband save, Mrs. North?

We save something out of everything my husband earns. He has a theory that you should save 10 cents out of every dollar of income!

What do you do with the money?

Buy Canada Savinas Bonds.

Because they're guaranteed by the Dominion Government. The way we figure it out is that if you buy something that cast 3 100 you want 15 100, and this is definitely the case with Canada Savings Boats. They are observed worth, and can always be cashed at, full value.

What method do you use to purchase the bonds?

We pay so much down at the bank and have the rest deducted from our savings account. The bonds are registered in my name but belong to both of us.

Have you bought Canada Savings Bönds regularly? Yes. Every issue.

Do you intend to invest in Canada Savings Bonds again Certainly.

Have you had accasion to use any of the bonds you have bought? Yes, so that my husband and his brother could buy out a business concern.

What is your basic purpose in saving?

Royal Visitors Warmly Greeted on Arrival in Canada

(CP from Toronto Telegram)

ON CANADIAN MAINLAND—Princess Elizabeth, at the moment this photo was taken, had her foot a mere three inches from the runway at Dorval Airport, Montreal, as the and the Duke of Edinburgh leave the BOAC stratocruiser which brought them to Canada for their cross-country tour.

At Dorval Airport, Montreal, Princess Elizabeth and the Duke of Edinburgh are greeted by R.C.M.P. shortly after they arrived. The royal couple then proceeded to Montreal.

WITH LIEUTENANT GOVERNOE — Princess Elizabeth walks toward the guard of honor in Quebec accompanied by Hon. Gaspard Fauteux, lieutenant-governor of Quebec, shortly after the royal tour officially started Tuesday. This photo is by Wasyl Kewalishen.

One of the first photos taken in Capada of Princess Elizabeth and the Duke of Edinburgh is this one taken at Dorval Airport. The Duke is stillinside the train as the Princess waves to the cameramen.

The Duke of Edinburgh is putially obscured by Prime Minister St. Laurent on the extreme right. This photo is by Barry Mc-Lorinan.

Passing through this archway symbolized the entry of the Princess and the Duke in Canada. The archway was erected at Dorval and the royal party passed through it en route to the train that took them to Quebec City.

CHARMING SMILE—Princes Elizabeth siniles charmingly at the throngs gathered to waith her arrival at Dorval Airport, Montreal, Monday. 3.21% PER YEAR IF HELD TO MATURITY LIMIT FOR HOLDING IN ANY ONE NAME-\$5,000. CASHABLE AT FULL FACE VALUE PLUS INTEREST AT ANY TIME

THE LONGER IT'S HELD - THE BETTER IT GETS

Canada Savings Bonds - Sixth Series - have a "life" of 10 years and 9 months from date of issue and bear 10 coupons of equal value. The first coupon covers 1 year and 9 months and is payable on August 1st, 1953; subsequent coupons come due August 1st yearly thereafter, until maturity. If cashed before August 1st, 1953, simple interest is paid at 2% per year (calculated monthly). This is because "dividing up" the first coupon payment over the period of 1 year and 9 months comes out to this "rate-per-year". This "rate-per-year" gradually increases as each coupon becomes payable until, for a bond that is held for its full term, the average annual interest rate reaches 3.21%.

CANADA SAVINGS BONDS are registered in the owner's name. They are non-assignable and non-transferable.

Holdings in any one name limited to \$5,000. Each member of a family may hold up to this amount. (Previous limit was \$1,000.)

Belleville Citizens Extend Welcome To Royal Couple

Civic introductions were run through quickly, giving the Princess more time to see the several thousand children who had a special vantage point directly in front of the platform. Being introduced is Alderman A. McLean Riag. From the extreme left are; Alderman Bruce Lattimer; Mr. Charles Hyde and Alderman Hyde; The Hon. Brooke Claxton (in the background); Mrs. A. M. Haig; the Princess and Prince Philip.

More introductions! Alderman C. D. Tice greets the Princess with Mrs. Tice waiting her turn. At the left are: Lee Grills, reeve of Sidney township, and Mrs. Grills. The Hon. Brooke Claxton, accompanying the royal counte, looks around apparently to see if introductions are nearly over.

← € County Warden Harry Coulter, of Hungerford township, bows as he is introduced to Her Royal Highness. 36 local dignitaries and their wives were presented to Princess Elizabeth and her husband during the brief platform appearance. Mrs. Coulter is at the far left waiting her turn to be Introduced.

Farewell to Belleville! The Duke of Edinburgh smilingly waves to the crowd and Princes Elizabeth gives forth with a smile as their royal train pulls out from the C.N.R. station following their platform appears ance.

Beaded coatumes and the feathered headdress of the Mohawk Indian tribe caught the interest of the royal couple during an unacheduled sidelight to their visit. Chief Tayaloteka and Mrs. Herman Claus display communion silver presented to the Mohawk Indian tribe back in 1714 by Queen Anne. The princess was surprised the inscription spelled Queen Anna without an "a."

"My dad wants me to go places when I grow up. If I'm to hold a big job, he says, I'll need a good education. And he's found a way to make sure his plans come true".

Tommy's father is right. Success in our competitive world is increasingly dependent on the "know what" and "know how" that come from specialized training.

After consulting a Manufacturers Life representative Tommy's father took out a policy carefully tailored to fit his plans for his son's future. Now, if Tommy's father should not live to see his plans come true, a monthly cheque from the Manufacturers Life will guarantee Tommy's higher education.

Yes, when it comes to saving — I'm a "Cagey customer."
That's why I watch EATON'S Automatic Recordion

Do you believe in saving, Mr. Riddle?
Oh, yes. Sure I do. You never know what's going to happen. In case of sidaness, you have money if you save. You don't have to depend on charity or anything like that.

And whot do you think of Canada Savings Boads?

There is one thing about those savings bonds.

While you can get more out of other filings in interest, you can always get your par value out of the bonds:

There will the old age persion one doesn't grow if one will live to that time. One little to be independent. In the spring of the year you can pay your traces in advance. No. Just used the interest.

By what method do you pay for the Bonds?

I pay cash for them at the bank.

Do you plan to buy Canada Savings Bonds again this year?

Yes, if I'm working, I always have: You see you get almost double the interest on them that you do on almost double the interest your savings in the bank.

As of last March 11, there were 124,550 individuals on payroll of the federal government, says a Canadian as dispatch from Ottawa. The cost of maintaining so people for the last year was \$338,977,000, as comment with \$338,850,000 for the proceeding year.
These figures, which represent only a small fraction the federal governments' distancements, indicate that cost of, administering this country's fathers at the sent time is no inconsiderable them of expense.

CROCUS

The cheer crocuse are braids of the coning of spring. Flasted in clusters and in association with pilots and Arabis, they make a lowly display. They may also be naturalized in lawns or used to edge a path. Shown is the variety called Striped Beauty. The flower is white with Blar-violet stripe. Deeply due light soil and a well drained location are the easy requirements for growing crocuse.

No other bond like it anywhere ...

BECAUSE IT CAN ALWAYS BE CASHED AT FULL FACE VALUE PLUS INTEREST.

There is no other security which offers this unique feature. All other bonds which Canadians can buy are subject to market quotations from day to day. The price at which they can be sold is the price someone else is willing to pay. But Canada Savings Bonds can be cashed for 100 cents on the dollar anytime without delay.

In addition, they pay a handsome return (averaging 3.21% per year if the bond is held to maturity).

They are registered in your name, offer-

They are backed by all the wealth and resources of our country. There is no argument-the man who owns a Canada Savings Bond has made the finest investment available today. We'd like you to discover a Buick's ease and comfort, a Buick's power and performance, a Buick's steadiness and control-just to see if maybe you bave been missing a travel treat.

We'd like you to discover what a valvein-head engine, as Buick builds it— gingered with Fireball combustion—can mean in pulse-pounding thrill and in big miles-per-gallon figures.

We'd like you to learn what coil springs on all four wheels-not just the front ones-can do in the matter of smoothing a rough road and keeping you on a level keel.

We'd like you to see what generous roadweight and a rigid torque-tube mean in solid steadiness of ride-what Dynaflow Drive* does for you in downright comfort and convenience—what a breeze it is to handle so big and roomy and impressive a car.

HOW WOULD SOME TEAMS SCORE?

Some people just can't leave well enough alone. Baseball, we elieve, is one of the best games played, and the major league triety, the cleanest, squarest sport played in the United States.

Wantety, the cleaners, squares aport payed on the observed output. Now along come Eddie Stankry, of the New York; Glinst, with the suggestion that home plate be enlarged from 17 loches in width to 20 indees. Stanky feels that that change would alliamistic or rather reduce the present large number of walts in a game to at least one. And Stanky should know, with the Parket his parties of the stank of the payed out much more quickwould be plained and games could be played out much more quick-

The five-sided size of whitened rubber will probably entitine to be used in its present dimensions, however. Not sity are there expects who will point out that entergement frome plate would affect the feel lines angle and thus ion-cease the hitting of feel balls, but there's a resistance to have in lawshall iredition that's hard to beck.

Baseball is so conservative that for nearly 60 years il has not to an official specification that meaked in by mistake. In 13 when the distance from home plate to the pltcher's box was anged to 60 feet a surveyor misraed the specification and made 60 feet, six inches, and so it has remained ever since.

The size of the baseball has remained ever sizes. What a one-point rise means today, we don't know, and certainly the Department of Finance im't proclaim-ing the figure. But if we take it as a nominal \$50,000,000, then the 20-point rise in the index this past year has added \$1,000,000,000 to the cost of living. That outlay is not part of the "eral price" of freedom and security at all.

More Power For Ontario

Hydro's Richard L. Hearn Generating Station goes into operation at Toronto

The opening of the Richard L. Hearn Generating Station on October 26th, by the Honourable Leslie M. Frost, Prime Minister of Ontario, is another step in your Hydro's expansion program to add over 2,500,000 horsepower by 1955.

The first two units in the new station will supply 188,000 kilowatts (252,000 horsepower). The largest of its kind in Canada, this station will be used to maintain a complete continuity of service by providing reserve power to meet the heavy demand occuring when industry, the home and the

farm simultaneously put electricity to its

greatest use.

The initial four units will have an ultimate capacity of 400,000 kilowatts (536,000 horsepower) and provision has been made to increase the capacity of the plant to 600,000 kilowatts (800,000 horsepower) if circumstances demand an extension of steam generating facilities.

On this occasion, the Commission extends its thanks to the engineers, to labour and suppliers who made possible the completion of the Richard L. Hearn Generating Station on schedule. (ah Mana

Mr. Trempe, I understand you are a regular purchaser of Canada Savings Bonds. Why do you buy them? They're all for my boys, later on.

Did you buy your bonds at work? I mean from doductions from your pay?

No, I bought them from my bank, I transferred the money from my savings account into Canada Savings Bonds, I always work to a budget for the sake of my family; that is, so much is for living expenses, so much for clothing, and so much for recreation and vacation, and so much for savings, I think Canada Savings Bonds provide the best way to save. I paid cash for my bonds and they are there, safe, for when I need them.

Do you figure they will come in handy in case of sickness in the family, or perhaps to help you in your old age?

Not for me. I have the hospital plan for sickness and accident protection, and the old age pension Bonds are all for my boys, for their education. The interest from the bonds will help with the expenses of ordinary schooling, and then the bonds themselves will provide the money for the boys to go to university. 900 Prisoners Watch Preview Of British Film

Kingston, Ont., Oct. 30—(Q2) kindry was a big day in Kingstpo emitentiary. Some 900 prisoners rinessed a preview of a Bettitch lin, that showed crime, while it may be fun for awhile, swer pays in the end—something they al-

Depending on the variety and extent of his past experience, each grisoner watched the show with a critical eye.

As the plan of the gold-theft unbolded, the convicts were husbot with admiration. They laugher fillsriously when a cool yegg, dis purbed cracking a safe, calmly at his hunch until the disturbance feared.

They jeered when two actor thugs opened an armored trus with only one twist of a crowbar During the delighthully funn chase scenes, as the London bob bies blundered about, crahin prowi cars into each other in fruitless attempt to catch th thiorest, the convicts howled wit give.

Guards stood every few for around the walls of the big, dra room where the film was show Radio and newspepermen, press for the unique preview sat at the back.

But they missed the humor if the subtler, shadowy parts when expert crime technique drew ap plause and laughter from the cor

When it was over, the press an radio men got up, walked throug a series of huge steel doors whet keys clanked shut behind then and out into a grey, gloomy Sur
